Your comment has been noted. The criteria used to route the transmission line is described in the Macro Corridor Study which is available on the RUS website at:  
<http://www.usda.gov/rus/water/ees/eis.htm>. These criteria and routing process will be addressed in the Draft Environmental Impact Statement. The project is still in the development and planning stages and the utilities have not yet permitted a route for the transmission line.

**If you own property in one of the proposed corridors, please indicate all the existing uses of your property below:**

- ☒ Agriculture      ☐ Residential      ☐ Conservation Easement  
☐ Commercial      ☐ Industrial      ☐ Other: \_\_\_\_\_

**Please describe any special uses or circumstances on your property that should be considered when assessing the Project. Please indicate the location of your property.**
